

Student Council Meeting 2/06/2021

1. Introduction/Attendance

- Last protocol was approved unanimously

2. Evaluation Speed Dating Biochemistry/ Immunobiology masters

- Lower turnout than expected
- Change the name to avoid confusion? Are people tired of zoom meetings?
- Offer a game night? Among Us? Pictionary?

a. New date?

- After exams? Wait until after Regulations exam, possibly after the essay deadline
- Game night with just the MedImmune students, as we still have the highest participation from the master courses

3. Evaluation online lectures

a. Any new comment?

- Why watch the recorded lectures and then hear the same thing in class? It was redundant
 - o Write it on the evaluation
 - o There was a lot of effort from the BfArM, all the professors showed up
- Were the videos provided by the lecturers specifically for us or were they old videos from last year that were just uploaded?
- Ask for the slides from Cornelia

4. Examination board members

- Supposed to be 4 members
- Open to all students of the master or should it be members from the student council?
- Wait for the email about this, if it takes longer then talk to Cornelia personally

5. OTHER

a. In person meeting if rules allow it?

- Ask Cornelia for any rooms/facilities to book for an evening if the regulations allow
- Send a WhatsApp to the group to inform them of our plans on in-person meetings and further zoom meetings
- Doodle with options: Would you...
 - join a zoom game night?
 - ...join an in-person meeting outside?
 - ...any other suggestion
- Meetings are possible once the incidence is below 50

b. New dates for Big Student Council
