Student Council Meeting 19/01/2022

1. Attendance, protocol
   a. Celia, Matteo, Sonja, Sara, Denise
   b. Guest: Hena
   c. Previous protocol was unanimously approved

2. Feedback online/in person lessons of 1º semester students
   - No online alternative to in-person exams in case of COVID infection
   - Lectures can still be held in-person, which is very good for the students

3. Big Student Council meeting
   a. Updates
   - Nothing new concerning our student council

4. Social Media
   - Some emails from potential new students were answered, but nothing extraordinary

5. Hoodies
   a. Design proposal confirmation
   - Designs were positively received
   - The design including names would not be as universal, but you can order multiple different products
     o Not certain how similar the products have to be in order to qualify for the same quantity discount
   - Offer multiple color options and hoodies and t-shirts
     o Make previews in different colors
   - Can we get an example printed to see if the quality and the print is good?
   - Print instead of embroidery
   b. Company
     i. Estimate price
   - Teamshirts, use price calculator (still to do)
   c. Finance
     i. How much money could the Student Council afford? Cluster of Immunosensation?
   - Since Richa was absent, this question remains

- Split the cost of the hoodies between funding and students?
- How will the payment be handled since the student council doesn't have an official bank account
    o One person from the student council collects the payment from the students
- Either ask the students for the full amount and give back any money we can get through funding upon collection of the hoodies or front some money
- Ask the cluster to cover for students that end up not paying?
d. Deadline?
- Finalize design until 21.01.22
- Propose design, color options and approximate price to students on 24.01.22
- Look for funding options and collect orders until 30.01.22, then collect money

6. Dongles for Flow Cytometry
    a. Any update?
    - Nope, postpone this

7. Others
    a. Set up of Alumni network
    - Table was created to collect data from alumni, such as name and places of labrotations and thesis
        i. Cornelia updates
    - Cornelia approved the idea
    - Could be introduced on our official graduation
        o Graduation day could be open online to alumni
    - Sign up for the network on your graduation day
    b. New student council between 31.1.22 and 4.2.22
        i. In person? Who could potentially go to 1º semester classes and do the elections?
        ii. Online?
        (4th February: last day of lectures
        Methods: end January
        Immunology: 10th February
        Clinical 18th February)

Next time:
- bank account for the student council?
